

Time and Tide author, Tim Hatcher, to speak at the Farmville Public Library

Tim Hatcher, author of *Time and Tide: The Vanishing Culture of the North Carolina Coast*, will be speaking at the library on Tuesday, October 24th at 11:00 am. This talk is free and everyone is invited.

Hatcher has lived on the coast of North Carolina for almost 60 years. As soon as he walked the shoreline at Hatteras Island all day in 1968 without encountering another human, he was hooked! He is an avid saltwater fisherman and has spent many hours cruising the coastal waters. Throughout the years, Hatcher has witnessed many changes to the coast, including the disappearance of the unique dialect spoken there for generations which brings sadness to his ears.

In the preface of his book, Hatcher writes, "I am as passionate and concerned about the North Carolina coast as ever. There is no doubt that the coast and its people will endure many changes and face many challenges. But there is also no doubt that the people will remain fiercely independent, persevering, hard-working, skilled, clever, clannish, reverent, tough, and strong. More than ever, they and their culture deserve to be valued and preserved."

Time and Tide is filled with amazing photography that showcases the beauty and austerity of the landscape. Hatcher has done an incredible job chronicling the many changes that have come to pass along North Carolina's coast. He is also a master at retelling the stories of iconic people and places that he has encountered. Come join us as he shares some of his experiences and insights with us on October 24th.

Copies of his book will be available for purchase at the event for \$30.

Told with an ear for the native language and local lore, with a taste for the water and its riches, and above all, with an eye toward the preservation of a vanishing environment and culture." - Amazon
